Getting to Quick Links Configuration

On the navigation menu (left-hand side of the screen Deep Sea Blue), under “Application Management” parent menu there will be a submenu -

- List values (detailed) – this menu is used to View/ Update all the list values used in the application.
- Select “Quick Links” in the “List value items”.
- To Create a new ‘Quick Link’ click on CREATE button.
- Or to Update a ‘Quick Link’ click on EDIT button (Pencil Icon) for the respective ‘Quick Link’.

The screenshot shows the HALOPV application interface. The navigation menu on the left includes 'Application management' and 'List values (detailed)'. The main content area displays the 'List of values' for 'Quick Links'. The table below shows the configuration for various quick links.
